

Learn Social is a digital platform which offers many different English language courses for General English, Business English and English for the TOEIC®, TOEFL and IELTS tests.

Learn Social has all the activities your students need PLUS social media tools to allow communication between students and between a student and their teacher.

## Features

### Peer review

Students review each other's work, providing feedback and encouragement.

### Teacher marking

Some activities that require production of language, either written or spoken, can be marked by a teacher.

### Easy to use

Bright colors and a user-friendly interface make the platform easy to use for both students and teachers.

### Scores and tracking

Teachers can see progress, scores and reports for all their classes.

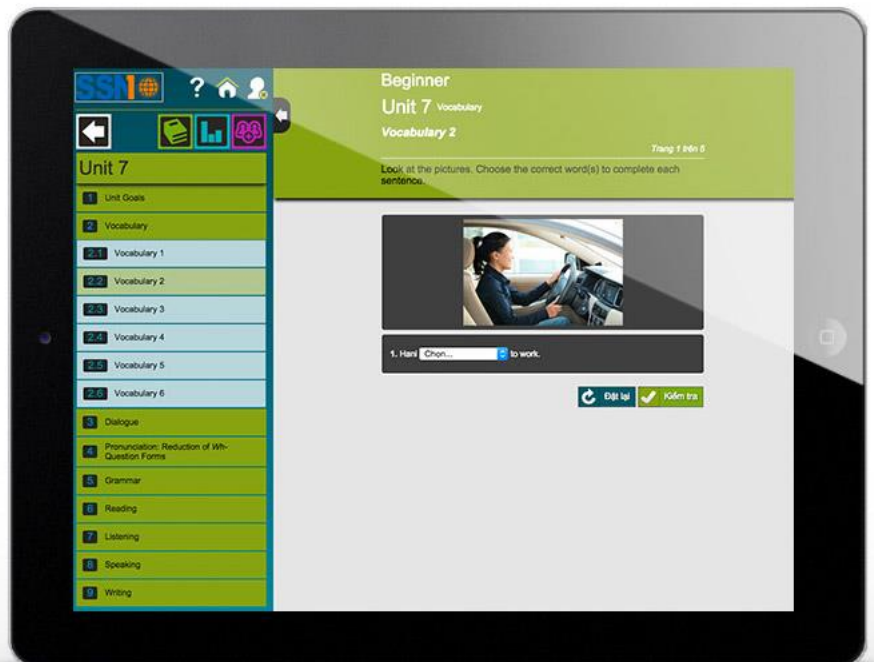

### Online & Offline

Downloadable content

## How does it work?

1. Students complete a speaking or writing exercise
2. First they submit their work to their Study Group for review. Students can see one another's answers and give feedback.
3. Students can improve their answers before submitting them to the teacher for the final grade and feedback.

Available on any device

## Make Learning Social

Do you sometimes wish that all the chatting, texting and Facebooking that happens outside – and sometimes inside

– class could be used to help your students learn English? It can!

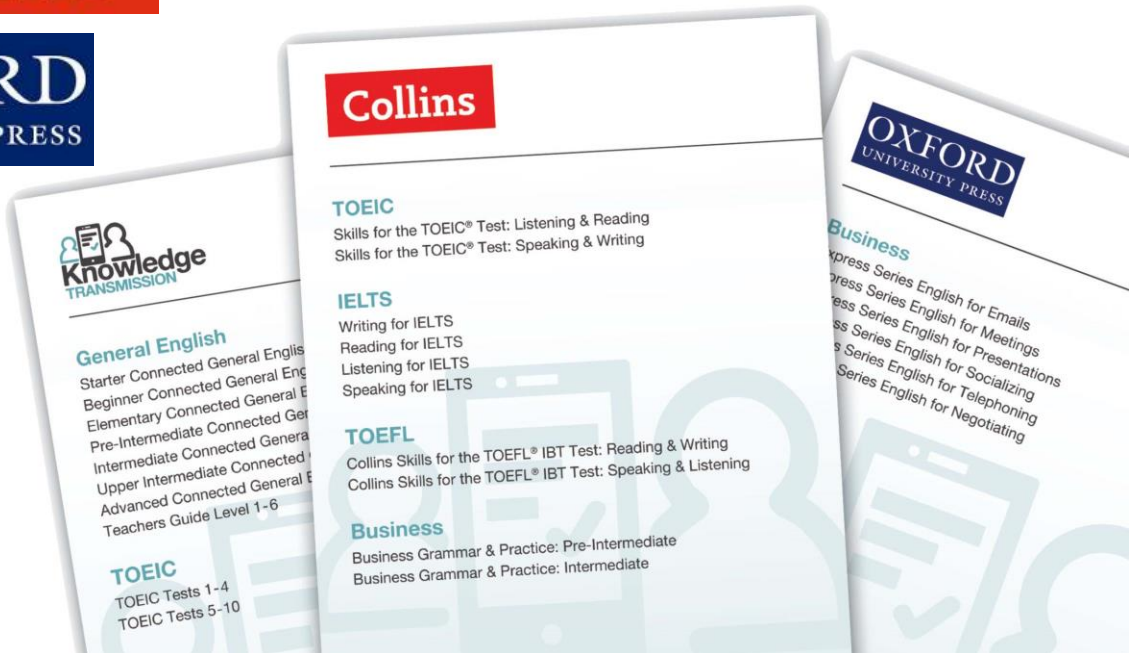

- The new Learn Social platform integrates everyday communication tools and peer review into your courses.
- The collaborative and communicative aspect of Social Learning improves levels of motivation, as well as results.
- It creates a real audience for students, encouraging them to speak or write in an authentic way.
- It develops critical thinking skills and a reflective approach to learning.

Learn Social gives you access to top courses from the leading ELT publishers all in one place and at very affordable prices.
