Developed and originally presented by Amber Wood, MSN, RN, CNOR, CIC, FAPIC

Amber Wood is a Senior Perioperative Practice Specialist at AORN where she has served as lead author and editor for several AORN Guidelines. Amber offers clinical information to members via the AORN Consult Line and contributes regularly to the Clinical Issues column in the *AORN Journal*. She has served as a member of the Association for the Advancement of Medical Instrumentation (AAMI) and ASTM International, liaison to the CDC Healthcare Infection Control Practices Advisory Committee (HICPAC) and is a fellow of the Association for Professionals in Infection Control and Epidemiology (APIC).

SAFE SURGERY TOGETHER

Outcome

On completion of this webinar, you will have knowledge of currently updated AORN recommendations for care of the patient receiving moderate sedation/analgesia and will be able to transfer the knowledge into practice.

SAFE SURGERY TOGETHER

Objectives

- Discuss the perioperative RN's scope of practice as it relates to caring for the patient receiving moderate sedation/analgesia.
- Identify age-specific pre-sedation patient assessment considerations.
- Recognize opportunities for patient collaboration in moderate sedation/analgesia.
