Developed and originally presented by Julie Cahn, DNP, RN, CNOR, RN-BC, ACNS-BC, CNS-CP

Dr Cahn has 17 years of experience in perioperative nursing working as a clinical nurse in both the scrub and circulating roles, a perioperative educator, and a perioperative clinical nurse specialist. She has worked in eight operating rooms across the United States from Boston to Honolulu, giving her a well-rounded perspective of clinical practice. Much of her work has revolved around professional development of perioperative nurses and ensuring excellence in patient outcomes. Dr Cahn works as a senior perioperative practice specialist for AORN and was the lead author for the 2021 revision of the Guideline for Prevention of Unintentionally Retained Surgical Items.

SAFE SURGERY TOGETHER

Outcome

- On completion of the webinar, you will have knowledge of evidenced-based practices to prevent unintentional RSIs and will transfer the knowledge into practice.

SAFE SURGERY TOGETHER

Objectives

- Identify two key revisions in the guideline.
- Explain how the guideline changes related to adjunct technology apply to your facility.
- Prioritize discussion of the guideline changes to assist your facility in incorporating these changes.
